SECTION 4. FIRST AID MEASURES

	SYMPTOMS	FIRST AID
Contact with eyes:	N/A	-
Contact with skin:	N/A	-
Ingestion:	It is recommended to avoid ingestion and contact with food	If swallowed, wash out mouth with water provided the person is conscious; seek medical advice (showing this document when possible). Never give anything by mouth to an unconscious person; never try to make an unconscious person vomit.

SECTION 5. FIRE-FIGHTING MEASURES

Flammability:	Liquid reagents contained in the kit are not flammable. Cellulose Nitrate in pure form is highly flammable, but due to the small quantity (< 5% of chip) and the conditioning of it in a dispenser, it is not considered as a risk. Combustion of cardboard inserts inside the kit and the outer cardboard box of the kit may			
	produce intense heat.			
Extinguishing Media:	Water (for cellulose nitrate chips); water, carbon dioxide, dry chemical powder or polymer			
	foam (for dispenser).			
	Use extinguishing media appropriate to surrounding fire conditions.			
Special Fire Fighting Procedures:	For fires involving this material, do not enter any enclosed or confined fire space without proper protective equipment. This may include self-contained breathing apparatus to protect against the hazardous effects of the normal products of combustion or oxygen deficiency.			

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions 6.1

Always observe GLP (Good Laboratory Practice) safety lines. To avoid contact with skin and eyes wear appropriate protective clothing. Do not swallow, do not pipette by mouth.

6.2 **Environmental Precautions**

Avoid flushing away in drains; keep away from surface- and ground-water; keep away from soil.

6.3 Methods and material for containment and cleaning up Sweep up and collect in appropriate containers for waste disposal; clean the floor and all other contaminated objects with water.

6.4 **Reference to other sections**

SECTION 7. HANDLING AND STORAGE

Precautions for safe handling 7.1

Always observe GLP (Good Laboratory Practice) safety lines. Wear appropriate protective clothing (refer to point 8.2). Wash hands and any other exposed zones with water and mild soap before eating, drinking, smoking and leaving workplace. Check the local and general ventilation of the workplace. Take any measures to prevent aerosol and dust generation and fire. Dispose of the waste according to safety measures of GLP.

7.2 Conditions for safe storage, including any incompatibilities Always store the product according to instructions given on the label. Always observe given temperature and humidity limit/range.
